## Best-Practice Erosion and Sediment Control Training

### ABOUT US

SouthernSkies Environmental Limited provides leading environmental and erosion and sediment control training throughout New Zealand.

Erosion and sediment control training courses have been approved by the International Erosion Control Association (IECA).

### COURSE OUTLINE

**Erosion and Sediment Control Training for Contractors is a one-day practical workshop focusing on constructing and maintaining erosion and sediment controls. The workshop covers best practice erosion and sediment control methods in accordance with Auckland Council GD05 'Erosion and Sediment Control Guidelines for Land Disturbing Activities in the Auckland Region' and legal obligations under the Resource Management Act 1991(RMA).**

#### Erosion and Sediment Control Training Summary

- Environmental Effects of Sediment Contaminant Discharges
- Legal Consequences, Rules and Compliance
- Cost and Benefits
- Erosion Processes and Sediment Yield
- Erosion and Sediment Control Tools
- Streamworks and Dewatering
- Erosion and Sediment Control Plans
- Tactics and Site Management
